Guide to Manuscripts in the National Agricultural Library

R. 269
Book No. 14
Congress of the United States,
At the second Session
BEGUN AND HELD AT THE CITY OF WASHINGTON
(in the District of Columbia,)
on Monday the second day of December one thousand eight hundred and fifty-one.
AN ACT to establish a Department of Agriculture.

Be it Enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That there is hereby established at the seat of government of the United States a Department of Agriculture. The general designs and duties which shall be to acquire and to disseminate amongst the people of the United States useful information on subjects connected with agriculture in the most general and comprehensive sense of that word, and to procure, propagate, and distribute among the people, new and valuable seeds and plants. Sec. 2. And be it further enacted that there shall be appointed by the President, by and with the advice and consent of the Senate, a Commissioner of Agriculture, who shall thenceforth receive from the Department of Agriculture, and shall hold his place in a house similar to that of other civil officers appointed by the President, and who shall receive, in his capacity, sixteen dollars a day, and two thousand dollars per annum.

Sec. 3. And be it further enacted, That it shall be the duty of the Commissioner of Agriculture to acquire and procure for his department all information connected with agriculture which he can obtain by means of books and correspondence, practical and scientific experiments, accurate records of which experiments shall be kept in his office, by the collection or statistics and by any other means within his power, to collect as far as may be able new and valuable seeds and plants; to test, by comparison, the value of seeds of them as may be such tests, to propagate such as may be worthy of propagation and to distribute them among agriculturists. He shall annually make a general report

U.S. DEPARTMENT OF AGRICULTURE

FOREWORD

When Isaac Newton, the first Commissioner of Agriculture, outlined the program for a new Department in 1862, he placed near the top of his list the establishment of an agricultural library. It was his belief that "the most valuable work would gradually accumulate by exchange, gift and purchase forming a rich mine of knowledge." Since that time the National Agricultural Library (NAL) Building has assembled a collection of over 1,500,000 volumes inclusive of historic and/or rare books, manuscripts and oral history transcripts.

In addition to the usual collection activities, the Library welcomes the opportunity to receive, preserve, and make available manuscript material of historic value including diaries, account books, letters, notebooks, memoirs and reminiscences pertaining to agriculture and its many related fields. The Library, as part of its efforts to meet its responsibilities for providing an accurate and convenient approach to its manuscript holdings, has prepared this *Guide* to improve access for both the reference staff and the researcher.

Richard A. Farley, Deputy Director
Technical Information Systems
Science and Education Administration
U.S. Department of Agriculture

INTRODUCTION

The National Agricultural Library Building houses a small collection of manuscripts inclusive of account books, broadsides, diaries, business records of private agriculturally related organizations, letters, personal papers, memoirs, photographs, reminiscences, record books and other historical items available in microform copy, the originals of which are located in other depositories.

This *Guide* has been prepared to lead the researcher to the manuscript holdings and to provide, in fairly general terms, the nature and scope of each entry. Entries are arranged alphabetically by name of creator, collector, or title. Each entry has been given a number which is used in the index. In general uniform entries include caption giving the name of the collector, dates of birth and death or establishment or founding, identification of form of material such as diary, papers, record book, etc., with inclusive dates. Following the caption is a descriptive entry itself ranging in length from one line to about a page.

Many people contributed to this publication. The compiler is especially indebted to the following individuals: Harriet Ostroff, Library of Congress; Doug Helms, the National Archives; Donna Jean Fusonie, Smithsonian Institution; Irene Glennon, the National Agricultural Library; and Vivian Wiser and Wayne D. Rasmussen, both of the Economics, Statistics, and Cooperatives Service, U.S. Department of Agriculture.

MANUSCRIPT MATERIALS

1. *Agricultural and Pomological Club of King George County, Virginia, 1871-1876.*

Record Book, 1871-1876.

Handwritten record book of meetings including entries on by-laws, constitution, canning, commercial fertilizer, cooperation, implements, grapes, hay, improvement of farms, immigration, labor, land, manures, potatoes, sheep, husbandry.

R 4 Ag83

2. *Transactions of the Agricultural Society of Albemarle, 1817-1828.*

Manuscript, 1817-1828.

(Photostatic copy)

Original in Virginia State Library

Contains handwritten record of the Society's activities and areas of interest.

R Folio 3 Ag82T

3. *American Association of Agricultural College Editors, 1913-1967.*

Records, 1913-1967. 15 ft.

Papers of the organization include correspondence, reports, newsletters, photographs, and other related files concerning editorial work in the agricultural colleges and universities in the United States.

4. *Arkell, Thomas.*

Account Book, 1854-1886.

Contains the pedigrees of Durham or Short Horned cattle bought and bred by Thomas Arkell on his Little Farmham Farm near Guelph, Canada.

R 43 AR4

5. [Arkell, Thomas].

Account Book, 1829-1849.

Contains entries on dairy products, barley, oats, the cradling and harvesting of wheat.

R 30.62 AR4

6. Badin, Norbert.

Family Papers, 1829-(1870-1890)-1937.

684 items, 2 manuscript volumes, and 54 printed volumes.

Business and personal papers of a free Negro planter of Melrose, Natchitoches Parish, Louisiana. In particular, the personal papers include a series of letters to Norbert Badin relating information about members of his family, community and local news. The miscellaneous material which comprises a substantial portion of the collection includes circulars from business concerns, handbills, advertising patents, medicines, cotton exchange, market reports, almanacs, political speeches and catalogs pertaining to farming. The personal and business papers of Norbert Badin 1829-1867 include 40 items.

*Fiche No. 34

7. Ballinger, Richard Achilles, 1858-1922.

Papers, 1907-1911.

In the University of Washington Libraries, Seattle [University of Washington Libraries], 1965. 13 reels.

Primarily correspondence, clippings, scrapbooks, speeches, and ephemera of Ballinger's career as Commissioner of the U.S. General Land Office (1907-1909) and Secretary of the Interior (1909-1911). Items in the collection relating to his business affairs (1915-1920) and death were not filmed.

*Film 1177

8. Barnes, Cornelius.

Account Book, 1802-1819.

Contains numerous entries relating to the use of leather for the making of boots, shoes, and the binding of books.

R Folio 30.62 B26

*In addition to filming some of its own historical manuscripts, NAL has available for use in microform copy, papers, diaries, and account books, the originals of which are located in other depositories.

9. *Bateman, Mary.*

Diary, 1856.

Original in the Southern Historical Collection, University of North Carolina, Chapel Hill.

Diary of a young girl living with relatives at Argyle Plantation, near Greenville, Mississippi.

*Fiche No. 38

10. *Blomqvist, Anton Gabriel*, 1836-1904.

Letters, 1836-1904. 33 items.

Letters to F. B. Hough, Forest Commissioner and First Chief of USDA's Division of Forestry, on forestry and the Forest Institute at Evois, Finland.

R 99.08 B62

11. *Bolton, James*, 1776-1795.

Manuscript, 1776-1795.

Icones Fungorum Circa Halifax Sponte Nascentium. [Halifax, England], 1784-1792. Includes 6 volumes and 242 colored plates. Paged continuously; water color drawings by the author. Each volume except volume 5 contains an index. Volume 6 contains manuscript "Index" and printed "Index Generalis" in both of which the numbers direct to the printed book: Bolton, James. *An History of Fungusses Growing about Halifax*; volume 6 also contains "Index Trivialia," an alphabetical index to the manuscript.

R Folio 462 B631I

12. *Bond, Priscilla "Mittie" Munnikhuysen*, 1838-1866.

Diary, 1858-1869. 86 items and two manuscript volumes.

Entries describe country life in Maryland before the Civil War, and also on a sugar plantation in Terrebonne Parish and in the town of Albeville, Louisiana, during the Civil War.

*Fiche No. 36

13. *Brewster, John Monroe*, 1904-1965.

Papers, 1950-1965. 3 ft.

Personal correspondence, papers, and research notes relating to his work with the Department of Agriculture in the field of economics; included is an original manuscript copy of his book entitled *A Philosophy Among Economists; [Selected Works of John M. Brewster]*. Philadelphia: J. T. Murphy Co., [1970].

14. *Bringier, Louis Amedee*, 1828-1897.

Papers, 1786-1901. 599 items and 14 volumes.

In Louisiana State University, Dept. of Archives and Manuscripts (Baton Rouge).

Planter, of Ascension Parish, La., and Confederate officer. Personal, family, business, student, and Civil War correspondence, business papers, military orders and communications, and journals, diaries, record books, and other papers relating to the history and administration of Hermitage Plantation, Ascension Parish, and Houmas, Burnside, and Bagatelle plantations. Includes letters from Bringier describing his student life at the University of Virginia and letters to his wife relating his experiences as commander of the 4th Louisiana Cavalry and the 7th Louisiana Regt.; together with papers (1786-1825) pertaining to the Augustin M. Tureaud family and including letters and land and property documents. Military personnel represented include Joseph L. Brent, Simon Bolivar Buckner, Louis Bush, and R. W. Woolley.

*Fiche No. 37

15. *Brooks, Emerson M.*, 1905-

Original Manuscript. [n.p. 1, 1972]. 6 ft. 8 boxes, 1 folder.

Original manuscript material, worksheets, picture photos, maps, etc. relating to the published work of the U.S.D.A. statistician, Emerson Brooks, entitled *The Growth of a Nation; A Pictorial Review of the United States from Colonial Days to the Present*. Also included are materials intended for use in a book entitled *Pictorial Agriculture—USA*.

R E178.5 B7

16. *Burruss, John C.*

Family Papers, 1825-82. 407 items.

In Louisiana State University, Dept. of Archives and Manuscripts (Baton Rouge).

Forms part of the repository's George M. Lester collection.

Methodist minister of Virginia and planter of Woodville and Cliffwood Plantation, Pinckneyville, Miss. Correspondence and personal and business papers of Burruss, his son, John William F. Burruss, his daughter, Mary (Burruss) McGehee, and Edward McGehee Burruss and Ann

(Burruss) Kennard, children of John William F. Burruss.

*Fiche No. 38

17. *Capell, Eli J.*

Merritt M. Shilg Memorial Collection Papers, 1840-1900 (Mainly 1842-1890). 1002 items.

Correspondence and business papers of a merchant planter and his family in Mississippi including two letters from Jefferson Davis. Also included are plantation diaries and other records of the Pleasant Hill Plantation, Amite County, Mississippi.

*Fiche No. 40

18. *Capron, Horace*, 1804-1885.

Memoirs of Horace Capron . . . Autobiography. n.d. 2 volumes.

Manuscript copied from typewritten original which is in the possession of the grandson of Horace M. Capron, 1423 Maple Avenue, Evanston, Illinois. It describes his activities as an operator of mills in New York and Maryland, as a plantation owner and livestock breeder in Maryland and Illinois; his interest in agricultural improvements and agricultural societies; his service in the Union Army during the Civil War; his tenure as the second head of the U.S. Department of Agriculture; and finally his pioneering work for Japan in the development of the island of Hokkaido. Related records are located at the Library of Congress and Yale University.

R 120 C17M

*Film No. 1192

19. *Cardon, Phillip V.*, 1889-1965.

Papers, 1889-1965. 2 ft.

Personal correspondence, and papers relating to his work with the Department of Agriculture in such areas as soil research, forage crop improvements, and land use policy; also included are some poems and photographs and material relating to his work with the U.S.D.A. Graduate School. Additional material is located in the National Archives.

20. *Cedar Valley Land Company of Vinton, Iowa.*

Record Ledger, 1904-1907, 2 volumes.

Contracts and records of sales, etc.

R 282 C32

21. *Central Landowners Association.*

Manuscript, 1918. 8 pages.

Proposal for the Establishment on a Voluntary Basis of a County Scheme for the Settlement for Ex-service Men on the Land.

R 282 C33

22. *Cartwright, Samuel A.*, 1793-1963

Family Papers, 1826-1864. 67 items, and 2 manuscript volumes.

Correspondence and other writings by a physician and professor of "Negro Medicine." The papers, covering the period 1844-1860, include letters from John A. Eritman, Jefferson Davis, John Slidell and others on politics, attitudes towards slavery, and the need for an emphasis on regional values in education.

*Fiche No. 41

23. *Chelette, Atala.*

Family Papers, 1819-1900 (mainly 1840-1899). 160 items.

Personal papers of a free Negro family of Natchitoches Parish, Louisiana, including an act of manumission, 1819.

*Fiche No. 42

24. *Cooke, George.*

Diary, 1826-1841; 1845-1849.

Two-volume handwritten record of a Maryland plantation in Hazelwood, near Patuxent, Maryland; includes daily entries for a 20-year period documenting the many family activities such as the clearing of the land, the planting and harvesting of corn, clover, potatoes, wheat, weather conditions, travel, and his horse pedigrees.

R S451 M3C6

25. *Correspondence Regarding the International Institute of Agriculture.*

Letters, 1905-1909. 13 items (Typewritten)

Correspondence includes letters from David Lubin, the American Representative on the International Institute of Agriculture and two copies of a French survey document on plant disease. Several of the

Letters were written to A. F. Wood, Assistant Chief of the Bureau of Plant Industry.

R 28 C81
*Film No. 528

26. *Coxe, William.*

Manuscript.

A View of the Cultivation of Fruit Trees in America. 2nd edition.
[Philadelphia?]

Two volumes; 832 pages and atlas of colored plates.

William Coxe (pomologist, 1762-1831) was one of the foremost fruit growers in America who experimented with new varieties of fruits from home and abroad. In 1817, he published *A View of the Cultivation of Fruit-Trees . . .* The manuscript for a second edition inclusive of text and colored plates painted by Elizabeth Coxe McMurtrie and her sisters was never published. It is considered by many specialists as the illustrative evidence of fruit culture during the colonial and revolutionary periods of the new American Nation.

R 93.21 C83 Ed. 2 text and atlas.

27. *Dodge, Jacob Richards.*

Manuscript, 1878-1902. 5 volumes.

Contains author contributions to the agricultural press.

R 30 D66

28. *Dorsett, Palemor Howard, 1862-1943.*

Manuscript, 1929-1930. 7 volumes.

Contains photographs of the United States agricultural expedition to the Orient between 1929 and 1930 along with handwritten discriptions. Subjects covered include bamboo, farms, landscape, ornamentals, parks and gardens, temples and shrines.

R 127 D732

29. *Dun, Edwin, 1848-1931.*

Manuscript (typewritten). 136 numb. 1

Reminiscences of Nearly Half a Century in Japan by Edwin Dun, who came to Japan as an agricultural expert and served as United States minister to Japan.

R 120 D91

30. *Duncan, Stephen.*

Family Papers, 1846-1899. 255 items and 11 volumes.

Correspondence, business papers, diaries, and plantation and personal records of Dr. Stephen Duncan of Natchez, Mississippi, and his son, Stephen Duncan, Jr., of Natchez, Mississippi, and New York. The plantations mentioned in the records include the following: L'Argent, Camperdown, Carlisle, Duncan, Duncannon, Duncansby, Ellisle, Homochittee, Middlesex, Oakley, Oxford, Rescue, Reserve, and Attakapus.

*Fiche No. 43

31. *Dromgoole, Edward, 1751-1835.*

Family Papers, 1770-1871-1880-1848. 1800 items, 8 volumes.

Original papers in the Southern Historical Collection of the University of North Carolina and one volume from the North Carolina Collection of the same institution.

These are largely the papers of Edward Dromgoole (1751-1815), merchant, planter, and Methodist preacher of Brunswick County, Virginia, and of his family, especially his sons, Edward Dromgoole, Jr. (1788-1840), physician, planter, merchant, and Methodist preacher of Brunswick County, and George Coke Dromgoole (1797-1847), lawyer, planter, and political figure of Brunswick County. Among other things the Edward Dromgoole Papers shed light upon the movement of settlers from Virginia to the western regions, particularly to Ohio, and upon life in the frontier area during this period. References were made to the attitude of the western settlers toward the institution of slavery; to the moving of free Negroes into Ohio; to activities concerning the acquisition, management, and sale of land; to problems connected with money, prices, wages, and business conditions; to accounts of travels in various parts of the western territories; to comments regarding the size and nature of towns in Ohio; and to the attitude of the settlers toward Indian troubles in general and the War of 1812 in particular. The microfilm edition of these papers is on four rolls and accompanied by a printed *Guide to the Microfilm Edition of the Edward Dromgoole Papers.*

Film No. 1312

32. *Eliot, Jared, 1685-1768.*

Letters, 1747-1769. 39 items. Photostat copies.

Original in Yale University Library.

Contains 39 letters to Jared Eliot including correspondence from John Bartram, Peter Collinson, Thomas Fitch, Benjamin Franklin, R. Jackson, William Logan, James Monk, Peter Oliver, W. Robinson, Benjamin Stiles, and Robert Walker.

33. *Estabrook, Leon Moy, 1869-1937.*

Memoirs, 1869-1937. 14 boxes. 9 ft.

Estabrook's manuscript entitled *Life of One American: Memoirs of Leon M. Estabrook* contains information relating to his work as statistician and Chief of the Bureau of Statistics and Crop Estimation with the Department of Agriculture in the area of crop reporting, travel abroad, recollections on eminent scientists with the Bureau of Plant Industry, and some observations on agricultural conditions abroad.

R 120 Es8

34. *Evans, Frank L.*

Manuscript (typewritten), 19-?

Reminiscences covering personal characteristics of several executive heads of the United States Department of Agriculture, 1871-1906. By Frank L. Evans, former disbursing officer and chief, Division of Accounts, U.S. Department of Agriculture.

17, 2, 27 numb. 1.

R 249.3 Ev1

35. *Friant, Julian N., 1888-1939.*

Papers, 1933-1941. Washington, 1941. 28 boxes. 10 ft.

The papers which relate to his years of service with the Department of Agriculture have been deposited with the National Agricultural Library. Julian Friant served as a special assistant to Henry A. Wallace, Secretary of Agriculture (1933-1939). A Democrat and for years a leader in the fight for national assistance to farmers, Friant, as special assistant, was instrumental in developing a successful program of patronage within the Department of Agriculture as well as generating a spirit of cooperation with a Democratic Congress and Party that had not had a chance at patronage for 12 years. His duties involved the review and recommendation of thousands of qualified applicants for jobs under the New Deal.

The collection is arranged alphabetically by correspondent and subject. Included is correspondence with many U.S.D.A. officials; to mention only a few, Henry A. Wallace (1933-1939), Paul Appleby (1933-1938), Chester Davis (1933-1937), Rex Tugwell (1933-1935); also included is substantial correspondence with James Farley (1933-1937) and others. Material spans activities related to personnel work of the Department of Agriculture, the Roosevelt Administration, the Democratic Party, Congressional Relations, and other related areas. Additional records are at the University of Missouri while other papers are located in the Franklin D. Roosevelt Presidential Library; additional

correspondence is located in the Henry Agard Wallace Papers and the National Archives.

RE 806.F7

36. *Furnas, Robert Wilkinson, 1824-1905.*

Papers, 1844-1905. [Lincoln, Nebraska State Historical Society, 1966] 13 reels.

Governor of Nebraska. Correspondence (1856-1905); 34 ledgers, five memorandum notebooks, account books, salesbooks, treasurer's records, and other financial records of Furnas as Omaha Indian agent, president and secretary of the State Board of Agriculture, businessman, agriculturist, and Mason; his journal as commander (1863) of the 2nd Nebraska Volunteer Cavalry; his executive papers (1872-74) as Governor; scrapbooks, memorabilia, and the daybook and account book (1832-48) of William Furnas. Have also Guide to the Microfilm Edition.

12 numbered leaves.

R 1 P69G

38. _____.

Papers, 1887-1938. 10 ft.

Beverly T. Galloway joined the Department of Agriculture in 1887 when he was appointed to the position of Assistant Plant Pathologist in the Division of Vegetable Physiology and Pathology and the following year was made chief of the same division. During the years from 1887 to 1894, Volumes 5 to 7 of the *Journal of Mycology* were published under his direction. Beginning in 1901, not only was he instrumental in the establishment of the present Bureau of Plant Industry but also, as its first chief, he served from 1900 to 1913 when he was appointed Secretary of Agriculture. In the early 1900's, in addition to his work as Chief of the Bureau, he also served as chairman of the committee that planned for and supervised the construction of the two ends of the U.S.D.A.'s Administration Building. In his capacity as Assistant Secretary, he urged that the Department be organized into services—Weather, Research, Forest, Rural Organization, etc. During the interim years between 1913 and 1914, he was appointed to the position of Assistant Secretary of Agriculture under Houston. In 1914, he became Dean and Director of the New York State College of Agriculture. Returning

to the Bureau of Plant Industry in 1916 as a pathologist, he remained in this capacity until his retirement in 1933. On June 13, 1938, he died at the age of 75.

These personal papers consist primarily of his many published articles, reports and speeches; in addition are included some pertinent correspondence and a few notebooks relating directly to his two major areas of research and photographs.

*Fiche No. 45

51. *Jump, William A., 1891-1949.*

Papers, 1938-1949. 10 ft.

William Jump was Departmental Budget Officer since the creation of that position in 1922 and Director of Finance since 1934 when the Office of Budget and Finance was established. His entire career was devoted to public service in the United States Department of Agriculture. He was recognized as an outstanding authority on budgetary and financial administration, and as a creative thinker and leader in a continuing effort to obtain improvements in these fields. His early realization that budgeting was a basic part of program development and operation did much to make budgeting the vital management force that it is today. Through the years, he emphasized the importance of preparing and presenting budgets which would reflect the nature and objectives of the work which the Congress had authorized and directed the Department to do. This contributed immeasurably to the integration of budgeting and programming making them joint parts of a single continuous process. Mr. Jump's efforts to encourage such budgeting were a reflection of one of the basic tenets of his philosophy of public service—an intense conviction that the public should be kept informed of the purposes of Government program expenditures, and that the programs themselves should

be responsive to the needs and desires of the American people. This collection of personal papers consists primarily of correspondence, budgetary data, reports relating directly to his work and professional interests.

61. *Lowndes, William*, 1782-1822.

✓ Family Papers, 1754-1941. 353 items, 4 volumes of transcript.
Original papers in the Southern Historical Collection of the University of North Carolina.

These are primarily the papers of William Lowndes (1782-1822), lawyer, planter, and political figure, who served in the United States House of Representatives from 1810 until his resignation for reasons of health in 1822. Also included are papers of other members of the Lowndes family, notably a small group of the papers of Rawlins Lowndes (1721-1800), father of William Lowndes and a lawyer and leading political figure in South Carolina in his own right, as well as the reminiscences of Thomas Pinckney Lowndes, grandson of William Lowndes, which are concerned chiefly with events occurring during the American Civil War.

The microfilm edition of these papers is on two rolls and accompanied by a printed *Guide to Microfilm Edition of the William Lowndes Papers*.

*Film No. 1311

65. *Morton, Julius Sterling*, 1832-1902.

Papers, 1849-1902. 111 letter books and 32 filing drawers. Original in the Nebraska State Historical Society.

Papers of the Nebraska editor and Democratic politician who served as Secretary of the Territory and as Acting Governor. Born in Adams, Jefferson County, New York, on April 22, 1832, Morton in April 1855 accepted the editorial duties of the *Nebraska City News* and as a politician became an enthusiastic campaigner in the Democratic Party. An advocate of tree planting, Morton was instrumental in the establishment of an official Arbor Day. His knowledge of agriculture and belief in the principles of conservative government influenced President Grover Cleveland's decision to appoint him as Secretary of Agriculture in 1893. Under Morton's stewardship, the Department saw the temporary elimination of government travel expenses and the elimination of some employees and services. Subsequent to his years in the Department of Agriculture, he actively discussed contemporary issues in the Nebraska newspaper entitled *The Conservative* and compiled a *History of Nebraska*. He died in Lake Forest, Illinois, on April 27, 1902.

His papers are arranged in six series: incoming correspondence in alphabetical-chronological order; outgoing correspondence in chronological order; bound press copy books indexed by year in the front of each book; diaries and farm journals. The microfilm edition includes 78 reels with the printed *Guide to the Microfilm Edition* catalogued separately under the following call number: S451.N2M6

*Film No. 663

66. *Mosher, Martin L., 1882-*

Manuscript, 1965. 7 volumes.

The original manuscript of *Farmstead Pictures of the United States of North America at the Middle of the Twentieth Century* contains 570 mounted illustrations textually documented, depicting a historic, geographic, and economic setting of farm people within each of the states.

R S581 M6

67. *National Agricultural Library, 1867-1970.*

Historical Papers, 1867-1970. 22 ft.

Correspondence, reports, clippings, newsletters, photographs on Library related activities. Files contain material by women librarians in responsible positions. Of particular note are the records from 1907 to 1940 when Claribel R. Barnett was not only Head Librarian for the Departmental Library but also was quite active in the library related organizations. This archival material also includes the years under Ralph Robert Shaw, 1940-1954, Foster E. Mohrhardt, 1954-1968, and John Sherrod, 1968-1973. Although there is no finding aid to this material, the pamphlet entitled *The National Agricultural Library: A Chronology of Its Leadership and Attainments* (Beltsville, Md.: The Associates of the National Agricultural Library, Inc., 1974), 16 pages, should provide quick background information.

68. *Nebraska Farmers' Alliance.*

Papers, 1887-1901.

Original in the Nebraska State Historical Society.

The Farmers' Alliance was an agrarian protest movement during the latter half of the 19th century. It had broadbase support ranging from the Middle West to the South and Southeastern sections of the nation. This movement included a diversity of people of different ethnic, economic, political and social backgrounds. Leadership within the movement included such notables as Ignatius Donnelly, Jerry Simpson, Mary Ellen Lease, who once said, "What you farmers need to do is to raise less corn and more Hell," and Tom Watson. The Alliance movement focused on such issues as currency inflation, the opposition to the growing influence of middlemen, fear of the power of the monopolistic industrial companies, lower interest rates, opposition to railroad regulations and other issues affecting the expansion and development of rural economics and social life. The Alliance included two distinct branches—the National Farmers' Alliance and Industrial Union, and the National Farmers' Alliance commonly referred to as the Northern Alliance. The latter organization was in turn a major force behind the development of the Nebraska Farmers' Alliance.

The papers of the Nebraska Farmers' Alliance include correspondence, letters, quarterly reports, and 22 bound volumes of records focusing upon organizational and business affairs, as well as ledgers and account books.

*Film No. 659

69. *North, Charles E., 1869-1961.*

Papers, 1869-1961. 159 ft.

The papers of Charles E. North, pioneer in the dairy industry, leader in gaining public acceptance of milk pasteurization laws and author of many articles and reports related to the development of the dairy industry, were presented to the National Agricultural Library on November 21, 1969, by Miss Jean P. North. This collection (approximately 20,000 items) encompasses North's correspondence on a variety of subjects related to the development of the dairy industry during the first half of the twentieth century. Of particular significance to the researcher in public health and consumer protection are the records concerning his efforts toward gaining passage of Milk Legislation. Also included in this collection are his many patents on processes and devices related to the milk industry and copies of many of his published articles in this area. Finally, there are many photographs and several movies which pictorially reflect his efforts and determination toward upgrading the sanitary standards for processing milk. There is an unpublished *Register* to the collection.

70. *Nursery Records*, 1896-1941. 2 ft.

Miscellaneous archival material including such items as the Letter-press Book (1886-96) of the Western Association of Wholesale Nurserymen, Account Book (1926-33) of the American Association of Propagating Nurserymen, Record Book (1937-38) of the Pacific Coast Nursery Association, Treasury Records (1936-38) of the Council of Eastern Nurserymen.

71. *Olsen, Nils Andreas*, 1886-1940.

Historical Records. 18 ft.

The greater part of this collection consists of the historical collection of Nils Olsen, former Chief of the Bureau of Agricultural Economics. It includes the following: journals, ledgers, and other account books of the Evens Hardware Company, Princeton, Minnesota, covering functions prior to 1920; records of Alfred Erickson, Washington County, Minnesota; minutes, payroll book, cash books, and other records of the Golden Valley Creamery Association and its member groups, a cooperative functioning from 1908 to 1910; some 19th century military post records; and other miscellaneous material.

72. *Passmore, Deborah Griscom*, 1840-1911.

Manuscript, 1911. 1 volume.

Flowers in Water Color is an original manuscript by Deborah Passmore. Born in Delaware County, Pennsylvania, on July 17, 1940, Ms. Passmore was educated in the Friends School and studied art under several famous artists including Thomas Moran. She also attended the School of Design and the Academy of Fine Arts in Philadelphia before coming to Washington, D.C., where, in 1892, she took an appointment with the U.S. Department of Agriculture, Division of Pomology. She painted for many exhibits and flowers and fruits in water color became her specialty.

75. *Prince Family Manuscript Collection, 1779-1914.*

Papers, 1779-1914. 5 ft.

✓ The Prince Family Manuscript Collection was deposited in the National Agricultural Library sometime before 1900. The bulk of the material in the Collection falls within the period from the turn of the 19th century to the beginning of the Civil War. This material is concerned with the most productive and innovative years of the Prince nurseries which were based in Flushing, Long Island, New York. During these years, the nursery was owned and operated by William Prince, Jr., and William Prince, his son. Their Linnaean Gardens developed into experimental grounds for cultivating species discovered on the American frontier and for testing the adaptability of native European and Asian plants and trees. The correspondence, account books, notebooks, and journals provide an insight into the difficulties of maintaining a large nursery in the early years of the new American nation. They reveal the problems in communication as well as in business transactions experienced by nurserymen and other agricultural experts in America and Europe at the time. Much of the material concerns business dealings between members of the Prince family and those transacting business with them. The remaining portion of the material deals with observations on and experiments with plant life discovered or cultivated in early America. These documents are identified in a subject index following the document list. A *Register to the Collection* was published in 1975 as Library List 101.

76. *Pugsley, Charles William, 1878-*

Manuscript [193-?] 2 volumes in 1. (Typewritten)

77. *Reall, Joseph H.*

Letters, 1879. 9 items. (Typewritten copies)

Nine typewritten copies of letters written during November and

December, 1879, regarding a) plans for the organization of the American Agricultural Association (apparently first considered under the name National Agricultural Society), b) the proposed and the elected officers, and c) the organizational meeting held December 10-12, 1879. Mr. Reall evidently became the Chairman of the Executive Committee and Henry E. Alvord was made one of the Directors. The letters show that Governors appointed delegates to the meeting and that 200 acceptances had been received by December 1. Also a press release regarding the organization of this society. Copies were made possible through the courtesy of Miss Caroline B. Sherman. Henry E. Alvord was an uncle of Miss Sherman.

Manuscript. (Handwritten)

Alphabetical List of Plants in Four Different Languages, Botanical, English, German, French.

William Saunders, horticulturist and landscape gardener, was born at St. Andrews, Scotland. Hailing from a family of noted gardeners, he removed to America in 1848 and took up residence in New Haven, Conn. The first article by him in the United States entitled "On the Culture of Leschenaultia Formosa" appeared in the Hovey's Magazine of

Horticulture, Botany, and All Useful Discoveries and Improvements in Rural Affairs XIV (1848): 447-448. Over a period of 40-years. Saunders also made additional written contributions to other leading horticultural periodicals including the *Horticulturist*, *Farmer and Gardener* and *Philadelphia Florist*. In 1862 he was appointed superintendent of the experimental gardens of the newly created Department of Agriculture. He established not only an extensive collection of trees on the Mall but also he developed a system of street tree planting used in the District of Columbia. He wrote widely on general horticulture and his publications include some 3,000 titles.

83. *Schoening, Harry William*, 1886-1969.

Correspondence, Manuscripts, Memorabilia, etc. Beltsville, Md., 1971. 1 ft.

Contains a small collection of books, personal correspondence, manuscripts, and other memorabilia of Harry W. Schoening, who retired from his position as Director of the Veterinary Pathology Branch of the Animal Disease and Parasite Research Division, ARS, in 1955. During almost 50 years of service with the U.S. Department of Agriculture, Schoening conducted and supervised important investigations into the causes and prevention of livestock diseases. Most prominent among these projects were those involving hog cholera and foot-and-mouth disease. Schoening served on many international scientific bodies, such as the World Health Organization and the International Veterinary Congress, as representative of both the U.S. veterinary profession and the U.S. Department of Agriculture.

This collection contains miscellaneous papers accumulated by Smith during his forty years with the Department of Agriculture. His research brought him respect as one of the world's greatest plant bacteriologists and pathologists for his demonstration of the analogy between plant and animal tumors. Author of more than 240 articles, he was elected President of the Society of Cancer Research in 1924.

R 464 SM5

88. *Spillman, Ramsay, 1891-1931.*

Manuscript. 453 numbered leaves. (Typewritten)

A Biography of William Jasper Spillman, by Ramsay Spillman (son). [Washington, D.C., 1940] "Bibliography of William Jasper Spillman": leaves 435-453.

W. J. Spillman (1863-1931) was born in Lawrence County, Mo., on October 23, 1863. After the death of his father, Spillman worked hard on the family farm and also to pay his college expenses. In 1886, he

graduated at the top of his class and subsequently taught in Missouri, Indiana, and Oregon. He was appointed professor of agriculture at Washington State College in 1894. At the experiment station, he undertook extensive experiments to develop winter wheat varieties. Through these studies in hybridization he made important contributions in the field of genetics and independently rediscovered Mendel's law of recombination. In 1902, Spillman was appointed as a specialist in charge of grass and forage investigations in the U.S. Department of Agriculture. Believing the Department had much to learn from farmers, he began studies of types of farms and made extensive field surveys of farm practices and costs of production. In 1905, when the Office of Farm Management was established in the Bureau of Plant Industry he was appointed its head. In order to carry his ideas of farm management directly to the farmers, he established a system of county agricultural agents in the North and West, paralleling Seaman A. Knapp's work in the South. He attracted many young college men into his organization. He encouraged others who had not acquired such formal education to enroll in courses qualifying them for professional work. Spillman left the Department of Agriculture in 1918 to become associate editor of the *Farm Journal*. Three years later he returned to the Department and remained there until his death on July 11, 1931. Among his many achievements, Spillman organized the Department's Office of Farm Management and for many years directed its investigations. He had much to do with the founding and establishment of a nationwide system of cooperative extension work; also, he authored and stimulated many valuable scientific studies in the areas of extension and farm management work. In recognition of his achievements, his associates elected him as the first president of the American Farm Economic Association. His influence continued in the work of those he had challenged and counseled, in the Federal Extension Service, and in the development of agricultural policy.
